

HaspLock

Never Lose a Padlock Again

HaspLock

Never Lose a Padlock Again

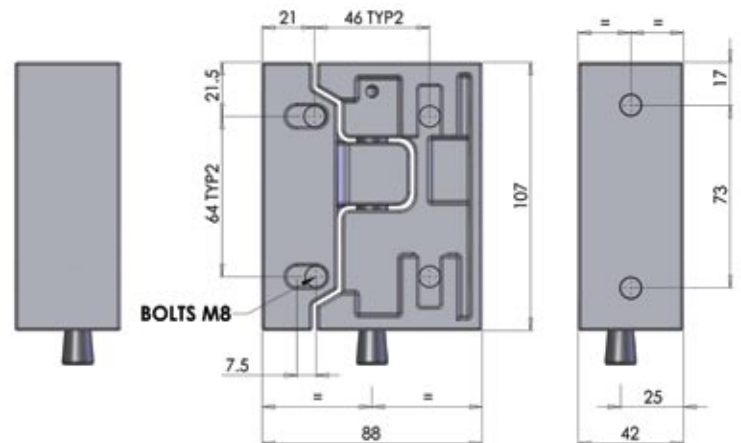

With Mul-T-Lock's new HaspLock, you will never lose a padlock again!

Simply because the padlock is an inseparable part of the hasp.

This convenient, fully mechanical and highly cost-effective locking solution is as robust and burglar-resistant as its predecessors, with one significant advantage: the padlock and hasp are incorporated into one hardened steel unit, with a locking pin that cannot be removed.

HaspLock Specifications

- High Security locking mechanism
- Non key-retaining function
- Body: Hardened steel investment casting
- Hardened, non-removable 13 mm diameter locking pin
- Available with all Mul-T-Lock telescopic-pin cylinder platforms
- Same footprint as Hasp C13
- Dust cover and drill protection
- Installation by welding or with standard screws

HaspLock Benefits

- Security level 6 according to EN 12320
- Unique product – all parts joined together and cannot be lost
- Highly cost-effective
- User-friendly operation and installation

HaspLock Suggested Applications

- Telecommunication facilities, where technicians come and go, mislaying locks all too often while they work
- Industrial and residential premises
- Warehouses and storerooms, opened each morning and locked every evening, providing ample opportunity to lose the lock in between
- Facilities used by numerous people throughout the day
- Military facilities
- Delivery trucks
- Gates
- Vending machines
